Von Bob Mayer : The Reply (Area 51 Series Book 2) (English Edition) before purchasing it in order to gage whether or not it would be worth my time, and all praised The Reply (Area 51 Series Book 2) (English Edition):

Even better than the first in the series!Von Ein KundeArea 51: The Reply is even better than the original Area 51 novel. I really can't delve too much into any of the key plot elements because that would spoil crucial events, but suffice it to say that there are enought plot twists and explosive events that keep the pages turning. The only thing I didn't like was

the fact that there were a few technical errors in the book (that was the only thing keeping me from giving the book 5 stars), most of them relating to military aircraft, but still those errors didn't take much from the storyline. A thoroughly enjoyable read, just make sure you read "Area 51" first! Can't wait until "Area 51: The Mission" comes out...1 von 1 Kunden fanden die folgende Rezension hilfreich. Better than the first book! Von Peter Werner The first book of the series is really good. But this one is even better. Fast action and unexpected twists of the action guarantee an exciting reading adventure. As usual the historical and esoteric backgrounds are well researched, and together with a realistic setting they end up in an almost credible plot. The characters are again credible and where they are stereotypes, they help to develop the plot and as creative instruments add to the tension that marks the book from the first to the last pages. One of the best in its genre.1 von 1 Kunden fanden die folgende Rezension hilfreich. The Mystery Grows Deeper. GREAT READ Von Ein Kunde If you've ever wondered about UFOs, abductions, the monuments on Easter Island, the Great Pyramid, etc. these AREA 51 books are what you're looking for. A really fun read with a deeper mystery behind the action. The end of Area 51 leads to the beginning of Area 51 The Reply. While this book answers some questions from the first book, the mystery of what exactly the truth is, seemed to grow even deeper. I really enjoyed this and am looking forward to the next book, Area 51 The Mission to learn more. HIGHLY RECOMMENDED

Kurzbeschreibung Book 2 in the Area 51 series When they uncovered the truth about Area 51, scientist Lisa Duncan and Special Forces officer Mike Turcotte revealed the secret history of decades of UFO sightings and extraterrestrial contact. But that history goes back much further than they could have possibly imagined Hidden deep beneath the waters around Easter Island is a giant supercomputer called the Guardian, and it has just sent a message into outer space. When the reply comes, it will signal the execution of an alien plan millennia in the making; after five thousand years, they are coming back. But who are they and what do they want? As the extraterrestrials race toward Earth, Duncan and Turcotte must scramble across the globe, from the Rift Valley of Ethiopia to an ancient Chinese tomb, to determine the aliens true intentions. If they fail, first contact with these visitors could mean last rites for the human race.
