things I didn't like about the story. Maybe it's only me, but I couldn't feel the spark between Cameron and Marti. The book was not bad though, therefore I give three stars. 0 von 0 Kunden fanden die folgende Rezension hilfreich. So dull! Von Leseratte This was really annoying. How can a President of a big company simply believe the words of a hook up that she is pregnant? Of course his true love is really pregnant. But that he doesn't believe. Then hook up admits she was never pregnant and everybody lives happily ever after. That is all there is in this book. I simply refuse to believe that a smart person is that stupid. I am impressed though that you can write a book without a story to it.

Kurzbeschreibung High-powered businessman Cameron Shaw doesn't believe in love until he falls head over heels for beautiful, passionate, and intensely private Martina. She's perfect in so many ways, immediately bonding with his little girl. Martina could be his future bride and a delightful stepmother if only Cameron weren't blinded by his belief that Shelly, the gold-digging woman he's promised to marry, is pregnant with his child. No matter how much his friends protest his upcoming marriage to Shelly, Cameron knows he has a duty to his children, so he's determined to see it through. Will he find out in time that Shelly's lying and Marti's the one who's actually carrying his child? It'll come down to the day of his wedding. After choosing Shelly over Marti at every turn, will he convince Marti she's his world and the only woman he wants? She writes suspenseful contemporary romances with outrageous plot twists, deeply emotional love stories, high stakes and higher drama. Her stories are filled with love, family, friendship, and the happily-ever-after we all hope to find. Jennifer lives in the San Francisco Bay Area with her husband and three children. When she finally leaves those fictional worlds, you'll find her in the garden, playing in the dirt and daydreaming about people who live only in her head, until she puts them on paper.
