**Von C. R. Daems : The Riss Accession: Book IV in the Riss Series (English Edition)** before purchasing it in order to gage whether or not it would be worth my time, and all praised The Riss Accession: Book IV in the Riss Series (English Edition):

KundenrezensionenHilfreichste Kundenrezensionen0 von 0 Kunden fanden die folgende Rezension hilfreich. A good conclusion to the previous booksVon starbooksIHAlthough not a thrill ride full of suspense it is a nice book and finds good development s for the Riss and their relations with the human race.. within all empires involved. It is really good that the Riss and the Riss-humans are finally getting the recognition they deserve.0 von 0 Kunden fanden die folgende

Rezension hilfreich. A very captivating series Von Ralph von Vignau The concept of the series covering many situations and nations including a jelly fish looking intelligent species keeps one reading. Light and enjoyable one follows the story how the intelligent species relying on human hosts fight for their future.0 von 0 Kunden fanden die folgende Rezension hilfreich. fantastic Von Stella Weiall of the riss books are fantastic. Especially the female hero. hope their will be more. I really like the author.

Kurzbeschreibung With invading aliens determined to confine humans to their planets, one thing is certain: the Aliens' force is technologically superior to the SAS, and even with the new Riss technology the clans have developed under Nadya Reese's supervision, the SAS cannot defeat them alone. But forging an alliance between the SAS, UFN, and JPU will not be easy. It will require the empires to put aside their long history of border wars and mutual dislike. Worse, many in the SAS hate Riss-humans, especially Nadya. As a consequence, maintaining the Mutual Support Agreement between the Riss and the SAS is proving impossible. And then there is the issue of sharing technology with recent enemies, the question of leadership, and Nadya's involvement. The JPU only recently had bounties on Riss-humans, and Riss hides are prized in the UFN and JPU. Nadya's not so sure the Alien's idea of confining the war-like humans to their planets isn't a good idea. But the fate of the Riss is tied to the humans, so whatever her doubts, she must act.
