Enjoyable Read!Von ZTThis is a sweet story. Warm characters all around. Even the villeins are interesting. It's romantic sans heavy cavey love scenes.

Kurzbeschreibung Matilda's father loses everything because of his irrepressible gambling, including her hand in marriage. To avoid becoming the wife of the brutal Earl of Tark, she courageously flees for her freedom and secures a survival position in the kitchen of a London Inn. While her culinary abilities are exploited by the innkeeper, she has captured the attention of the gallant and war-wounded Major Bruce, who invites her to work for him at his Scottish castle. But as affection grows between Matilda and the handsome major, her past comes back to haunt her.
