AWESOMNESS!  
Von Anna SalamatinPicture two different dimensions with portals into each other that appear and disappear at random times, and can't be seen until your almost on top of one. Now picture that one of these dimensions is ours and the other belongs to a place where the Shadowcons come from. Their world is a vast wasteland at this point, but they have the ability to snatch and take over a human being and become that person. There are some of us that are aware of them and their plans to inhabit our world. We have also learned much of their advanced technology along with the knowledge of what will kill them. The Seer's, who are scarce, can see a Shadowcon inside a human host

by the purple shine in the eyes. They can also "see" a portal from a great distance. So now you have the basics, heres the rub.....Jasmine was a cop who through some freak accident left her with the abilities of a Seer! Her partner is a Shadowcon who works with her to find and turn or stop his kind from decimating this world. They have a whole team set up in a secret place, all set up to handle almost anything they bring back.Jasmine is summoned to her Grandfather's death bed and learns that she is to inherit the whole shebang! Oh yeah, here is where you should think, "Godfather" as in Mob family! The problem here is that apon her arrival she "sees" that the family has been infiltrated with Shadowcons!She is betrayed by the one family member she trusted, he is human, right hand to her Grandfather, but a traitor just the same.The killer is at the end.....I just couldn't believe it!Is her partner, Luken, and the new found love of her life going to pay the ultimate price for this betrayal?This first installment of the Shadowcon series will stretch the boundaries of the imagination. I know that I'm ready for the second leg of this journey to begin.

Jasmine changed that and now he has turned on his own kind to join her in the fight to save humanity. Jasmine never expected her life would become one crisis after another! But for the last four years, she and Luken have constantly fought against a deadly invading force from an alternate dimension. And they were winning until some of her closest family members become casualties and shes forced to question the motivation to keep on fighting Is the battle to save humanity even worth it, when her very own loved ones are becoming victims?KurzbeschreibungThe Shadowcons are hereLuken simply wanted a new life that didnt involve killing his own people.
