(English Edition):

KurzbeschreibungA mysterious Vision.An astounding new world.And a life she never could have imagined.Five thousand years in the future, the Earth is dead. A galactic network of terraformed planets, connected by teleportation portals, is populated by the genetically improved Descendants. The original Humans, labeled dangerous and barbaric, are kept under constant surveillance.In this seemingly peaceful society, Dora Dana Dasnan, a gifted Visionaire, serves the leading race of Descendants by reporting her Visions of the future. But when one of her Visions predicts the unthinkable contact with a Human man Doras carefully ordered life begins to unravel as she desperately tries to hide her thoughts from her masters.Soon, her very life is in danger and she needs to escape before its too late. But in this disciplined and controlled society that is impossible. Just when Dora loses all hope, a teleportation error sends her to a new and astoundingly beautiful world: a wild, lush, green planet where all her hidden emotions come to life. And then she meets the natives, and one in particular looks strangely familiar. And while Dora struggles to adapt to an alien culture she also discovers just how powerful her emotions really are.
